Permit #1071-24  
Supplemental Permit #1972-16

Industrial Building Operations  
P. O. Box 215  
Chicago Heights, Illinois 60411

ATTN: Mr. Leonard C. Triem

Dear Mr. Triem:

Supplemental Permit is hereby granted to Industrial Building Operations to accept and deposit spent sulphuric pickle liquor in accordance with the handling methods outlined in the letter of November 29, 1972, from Industrial Building Operations to the Agency. This supplemental permit is further subject to the following special conditions:

1. The spent pickle liquor deposited shall be limited to the quantity required to control rodent infestation at the site. Under no circumstance shall the amount deposited daily exceed one gallon per cubic yard of daily dry refuse deposited.
2. Use of pickle liquor for rodent control shall be limited or suspended during periods of precipitation to minimize acid content of runoff.

Very truly yours,

ENVIRONMENTAL PROTECTION AGENCY

Douglas Andrews, Manager  
Permit Section  
Division of Land Pollution Control
